**Week 8**

Hello,

This week has seen a large number of children away from school due to sickness. Below is some information about colds, how they are spread and how to help minimise the spread.

Colds usually last 1–2 weeks. However, you could get a bacterial infection after a cold, such as an ear infection or sinus infection, which may mean you're unwell for longer.

### How Colds are Spread:

There are over 200 different viruses that can cause colds. These viruses spread through the air when someone with a cold sneezes or coughs. You may also catch a cold by handling objects that were touched by someone with a cold. The web page below is a great way to explain bugs and colds to your children.

### PTA (Parent Teacher Association)

This group is made up of a small number of parents and teachers. There is 1 meeting a term. The PTA support 3 or 4 school events throughout the year. So you can see the commitment is quite small. Please attend the AGM at school if you would like to know more.

### Matariki:

We will be celebrating Matariki at Kaeo School between the 24<sup>th</sup>-27<sup>th</sup> June. As we haven't had any offers of help with the hangi, we have decided to have a shared lunch instead. Your child will bring home a note soon, explaining what they need to bring for the shared kai.

### Cross Country – Totara North School:

Friday 21<sup>st</sup> June – 10.45am start for the juniors. Races will then be run in age order, youngest to oldest throughout the day.
