

Term Four is Busy, Busy, Busy!

We have a very busy term in Room 1 as we approach the end of the year. We have already had Pet Day and Duffy Theatre, still to come are Market Day, Graduation, Waitaruke Festival, Honours Board Trip, Boy's Sleepover and our Pool Party.

As well as all of these extra events we also have a busy term in class. Our topic this term is around music and musical instruments. The children are researching a handmade musical instrument for homework, and in class they are learning about how different groups of musical instruments create sound. They will then be designing and creating a musical instrument of their own using the knowledge they have gained.

Thank you in advance for supporting your child to source the materials they will need for their designs. They are looking forward to creating their own instrument. We would appreciate any parent help with power tools when we start making our instruments in class.

Room 1 have been exploring the instruments in the school, and had a go making straw flutes. It is not as easy to play them as it looks!
