

# Kao School at Home

Hi from Miss Harris!

It's diorama discover time!!! Dioramas are mini stages or 3d scenes, they are incredibly fun and can be made out of anything from weetbix boxes to bits of wood or even ice cream containers. Our learning for the next few days will be centred around our diorama projects. Choose a topic it can be **anything** your interested in, just make sure you can complete the tasks below with your chosen topic. Take your time with it, add lots of detail and enjoy!!

## READ

### Zort's diorama

Paste the link below into your browser and read about Zort's diorama.

Afterwards, see if you can make a list of 6 adjectives from the story. Remember adjectives are describing words.

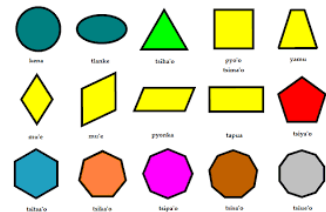

<https://docs.google.com/presentation/d/1tr4BZayJS06j3rG7qgVNIpMubD7rSuzDSUr16Aee200/edit?usp=sharing>

### Spot the shapes

Write down the names of seven different shapes you can see in your diorama. Draw these shapes alongside their names.

See if you can include at least one 3D shape.

### Speech marks continued

Speech marks can be tricky things so lets get in some more practice!

In your diorama include 3 or more characters. Using paper or card create speech bubbles and make it look like your characters are having a conversation.

### Word Chain

Can you make a 10 word chain about your diorama?

Start with a word describing what your diorama is about. Next write a word that relates to your last word. Do this until you have written 10 words. Afterwards, get a family member to check your spelling and practice any words you have misspelt. If you didn't get any wrong try again but choose more difficult words.

**Example: Dinosaur-Carnivore-Meat-Chicken-Eggs-Round-Circle-Sun-Space-Stars**

### Investigate your diorama topic

Make a facts sheet about your diorama. Investigate your topic and discover interesting facts and information. Use this information to create a one page facts sheet.
