The Three Billy Goats Gruff - <https://www.youtube.com/watch?v=xnxWzB-ba7c>

This is a story of Three Billy Goat brothers. There is a small Billy Goat Gruff, a middle Billy Goat Gruff and a big Billy Goat Gruff. They eat all the grass on one side of a bridge, so they decide to cross the bridge to get to the long green grass on the other side. But under the bridge lives a horrible troll, who won't let them cross. The Billy Goats all trick the troll and finally get over the bridge to the long, sweet grass on the other side.

You can read the story online, or get someone at home to re-tell the story to you.

- How would you trick the troll under the bridge so that you could get to the other side?

Investigate the maths problem below - explain what you are thinking and how you worked it out.

- Georgia has \$5. She buys a nut bar for \$1.10. How much change does she get?
- Aria has \$10. She gets \$4.60 change after buying a packet of rice biscuits. How much do the biscuits cost?
- Oliver pays for \$1.10 for two apples. He gets 90 cents change. How much money did he give to the person at the checkout?
- Practice skip counting in 5's up to 100. Use a hundreds board to help you spot the patterns you find. Draw your own hundreds board and colour in all numbers as you count in 5's.

Design a Picnic

You are going to have a picnic in your house or garden.

Who will you be inviting? (use your imagination, you can invite anyone!)

Plan what food and drink you will be having at your picnic. What games will you play after you have finished eating?

Draw a picture of your picnic.
