

# Kaeo School at Home

Hi from Mrs Molesworth,

Here is your plan for today. Some things are easy for you to do and some may be a little more difficult. It's ok to get Mum or Dad to help you—they may enjoy it! Your job is to work on the tasks over the next two days, your parents job is to help you out and to check that you understood the activity and that you completed it. Wow I can't believe we have been doing all these weeks of Home Activities. Not long to go and we should be back together in our classroom, that will be so exciting. I have lots of things planned for us to do. Only a few more weeks of Autumn and then our Winter season will be here. I have been making yummy soup and collecting pine cones for my fire.

Share another book with someone in your whanau, maybe one of your Duffy books or one online, and talk about your favourite page. It won't be long and we will be doing our instructional reading back in class. Just sharing and talking about books while you have been at home is so valuable to you learning to read yourself. The parts of reading are Visual, Meaning and Structure. You have been using your eyes to look at words, especially the first letter. You have been discussing the stories and understanding the meaning of them and you have been listening to how we say sentences so they make sense and this is Structure. I am not worried about your reading.

Tally Tables! Remember our Tally Chart at school where we counted the days we were at school. Well this week I want you to make a Tally Chart or Table of Favourite Zoo Animals. The animals are, monkey, lion, penguin, polar bear, alligator. I want you to try and draw each animal and then ask the people in your whanau which one is their favourite. You have to put a Tally Mark which is like a line, beside the animals they choose. Your questions are :

Which zoo animal got the most votes? Which zoo animal got the fewest votes?

For your writing this week I want you to think about Emotions. This is about how we feel. I want you to draw about something that has made you feel Happy, something that has made you feel Sad, something that has Surprised you and something that has made you feel Worried. Discuss these feelings with your whanau and they can help you write your story beside each feeling and draw your face showing that feeling.

Remember this is called our Alphabet Work. This week I want you to practice Curve Letters.

The letters I want you to practice that have a curve are :

D, B, J, U, R, P. Make sure you start them in the correct place then notice where the curve happens.

For our Art today I want you to create a Nature Colour Wheel ! Draw a large circle on a piece of cardboard, you could trace around a dinner plate. Cut out the circle. Divide up the outside of the circle into about 12 sections, so each sections represents a colour. You could have 3 parts for green, as there a a few shades of green. Maybe 2 parts for yellow, 2 parts for orange, 3 parts for blue/purple, and 2 parts for brown/beige With your coloured pencils colour the parts or if you have coloured paper you could cut a piece of paper and glue it on. Now go outside and find things in nature to match each colour and peg them on. Have fun. Bring it to school.
