

Kaeo School at Home

Hi from Mrs Molesworth,

Wow, back to school next Monday! Gosh you will have so much to bring and show me, its going to be really exciting. I'm not sure how Billy Cat is going to cope as he has really got used to me being at home all day, maybe lots of treats will do it! For our Activity Work today I want to focus on some cooking if you are able to. Its such a nice way to bring people together and have lots of fun. With the help of an adult I would like you to cook something and share it with your whanau and friends. Its could be something for breakfast or morning tea or dinner, you choose.

Keep sharing books with your whanau. If you can get youtube I would like your to listen to the story " Don't Play With Your Food " by Bob Shea. Have a discussion about this story, it has some fun messages and I think you will like it.

Your number work today will be about your cooking. There is a lot of maths work in cooking. Get your helper to talk about this. Your recipe might have 2 cups of flour or 1 teaspoon of baking powder, or 3 eggs. Have fun and take some photos!

Your story today will be about your cooking. Draw your favourite part of your cooking time. It might be the cookies you made or your face eating them! You might draw the ingredients.

For alphabet work today I want you to match up the letters in your name with some food.

Write the first letter of your name then beside it draw some food that also starts with that letter, e.g

M I might draw a mandarin

O I might draw an orange

Lets do some Food Art! I want you to design a funny face on a piece of bread. Think about what food you could use for the eyes, maybe some cheese cut in a circle with a pea in the middle! You could cut up carrots for hair or even cut your bread to make a big circle mouth! Use your imagination. Take a photo to show me, and I will want to know if you eat it? You could always give it to someone!
