Heart Art

We have been exploring how our heart feels in different situations. Often talking about how we are feeling, helps to deal with and manage challenging circumstances.

In Art, we studied complementary colours on the colour-wheel, and looked at colours that we liked to go together.

We used pastels to colour in, then put a layer of PVA glue over the top to make them shiny.

For Poetry Writing, we talked about our feelings and what things we related those particular feelings to.
