

Kia Ora from Room 7

What a wonderful 5 weeks Room 7 had with Miss Howard. Learning to become a teacher is not easy but Miss Howard is doing a great job. We learnt fun noodlecize, made pattern bugs in maths, planted seeds and bulbs inside recycled old gumboots, learned about and created super worms and extended our skills on the iPad's.

We were so lucky to have Anouk visit us and teach us about building a worm farm.

It was exciting to have our first "real" school holidays and not have to be in a "bubble!" This term we are looking forward to our Winter Waiata Wonderland to celebrate Matariki and then it will be spring, and our bulbs and seeds will have flowers!
