

News From Room 6

What a term! The weeks seem to be passing so quickly we are already half way through the last term of the year! We have enjoyed having Constable Rob, who told us about keeping Safe and Whaea Diane who taught us about fractions, visit Room 6. We all agree that Pet day was rather special for us too. Thank you so much to those of you who gave up your time to help us on this day. Throughout the year we have been following the seasons in science. We have been enjoying the spring and have done some writing for you to share about one of our favourite seasons.

Last Friday was another special day for us all, as we took part in Market day. It is always so cool to see so many happy faces when the children return with their treasures.
