

Kia Ora From Room 7

It was fabulous to be able to celebrate Grandparents Day. Room 7 was so lucky to have so many Grandparents and Whanau visiting us. The vege gardens are nearly all in place, with Room 1 working alongside us moving soil and transplanting our seedlings. We picked our first lettuce leaves for the burgers on Friday! Our bean seeds in their little plastic bag hot houses are cracking open and ready to plant as well. What a wonderful place we live in. We are still working hard with our reading and alphabet as there are not many weeks left until the big xmas break.
