

## KIA ORA FROM ROOM 2

A busy term for us with lots of exciting things going on! We have been learning lots about space through our 'STEM Fridays' and topic time.

We have also been busy with another topic – 'Our Mind, Food and Body'. We had Miss Lawson's dad (Dr Lawson) come in to talk to us about our brain and how it works and we will have Anna Valentine come in next week to talk to us about our food and making healthy choices. We are so lucky to have these experiences!

Ki o Rahi has been another sport we have enjoyed this term. Whaea Gina has been teaching us how to play. We always look forward to our Ki o Rahi sessions with her!
