

# Kaeo School at Home

Hi everyone :-) Here are some more activities to keep you going through lock down. Hopefully you will have received your hard packs, if not, they won't be far away. Some of the resources I have sent you will come in handy when completing the activities. Please keep sending me the work you have done, ask lots of question, and have fun. Keep it up Room 1 and stay safe.

<https://www.cbc.ca/kidscbc2/the-feed/14-of-the-worlds-weirdest-insects>

Read about the 14 weirdest insects in the world. Perhaps you can use what you read about to complete the last activity.

<https://www.pobble365.com/ladybird>

With a frantic flutter of her wings, she hovered for a fraction of a second before landing gently. Beneath her she could feel the softness of the feather, and as she walked tentatively across it the long, white strands parted. Her shell was as red as a post-box, and she had a small, circular black dot on either side. She considered herself to be the most beautiful creature in the entire garden!

Finish this story.

- Consider where the feather may have come from, this could perhaps be another character that comes into the story.
- Why was she frantic?

Use CUPS and ARMS to edit and recraft this tomorrow. Use the 3 coloured markers.

plain	icicle	explosion
swine	float	statement

The six words above have the long 'a' 'i' or 'o' sound in them. Work out which sound is in each word, how the sound is spelt in the word, then find 2 more words that use the same spelling pattern for that sound.

**Just for Fun** (-: See how many words you can make out of the letters from my favourite weird insect the

**Brazilian Tree Hopper**

Following on with the toilet paper themed questions in your activity pack, answer the following question and explain how you got your answer.

On Monday, New World has three boxes of toilet rolls. Countdown has four boxes of the same toilet rolls, with enough for one roll each for 24 people altogether. How many people could have one roll each from New World?

By Tuesday, one third of the toilet rolls at Countdown have sold, and half of the toilet rolls from New World have sold.

If 18 more people want toilet rolls, is there enough for them at the two supermarkets?

If the weather is fine go outside and explore. Can you find an insect / spider / centipede?

Look closely, what do you see?

Draw and label what you find.

Try and find out...

- Where else in the world it lives?
- What it eats?
- How it sees?
- How it moves?
- How it hears?

Using the pipe cleaners that are in your pack create your own insect. Think about what it eats, where it lives, how it moves, hears, sees. What sort of body parts will your insect need to have. Share a picture of your creation when you have finished.
