

Kia Ora Room 2 ☺

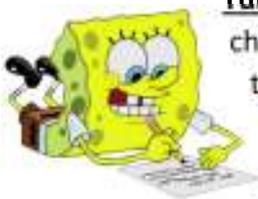

Here's today's learning page for you. Some things are easy for you to do and some may be a little more challenging. It is ok to get someone to help you—they may enjoy it too! Remember, you can also email me; rona.lawson@kaeo.school.nz with any questions, photos, updates or even just to say hi. Alternatively, posting your photos or commenting on the Kaeo School At Home Facebook page is a great way to share your learning with me and others. So let's get started.

Riddle of the day *I look like you, but I am not you. You can blow me up or find me in a wallet. Share me or frame me, both are nice. What am I?*

Pānui – Using the book in your activity pack or another book around your house, read 10 pages of it, or a whole chapter. You don't have to read it to anyone today, but you must answer some questions about what you have read. This will help you to understand and make sense of what you have read.

- Who is the author?
- Who is the illustrator?
- Did you make a prediction before you started to read? If so what was it?
- What were your 10 pages+/chapter about? Write at least 3 sentences explaining this.
- Can you think of what might happen in the next 10 pages or next chapter? Predict this.
- Now draw a picture of what you have just read. Does it match what you wrote?

Tuhituhi – Looking back to our character writing again, we know that characters can be people, creatures or things but they also have to be able to **think, feel and act**. Your task for writing today is to describe someone in your household. It could be your mum or your little brother. What do they look like? Sound like? Act like? Think like? Remember to use some language features to describe them. E.g. My little brother is as naughty as

our cat because...

Pāngarau –

I'm thinking of a number. I get the same answer if I add 8 to my number, or if I don't add 8 but instead I triple my number. What number am I thinking of?

Think about these things when you are solving this problem;

1. What does tripling a number do to it?
2. When you triple a number, it is the same as adding in up ...how many times?
3. What does adding do to a number? How much bigger will it get?
4. If adding 8 gives the same answer as tripling it, what can you say about that number?

SpongeBob Spelling master!

Select a new row of words from the You Can Spell 'Challenge Rows' below. You will learn and practise this new set of words throughout the week. Hopefully I haven't made any spelling mistakes this time!

Challenging words from Book 4, List 11:

anyway, fruit, potato, bottom, hitting, saying, classes, laughed, smaller, doctor, middle, sugar, feel, opening, twelve

Even MORE challenging words from Book 6, List 21: forward, mist, stall, candle, happily, panel, through, copper, happiness, prevent, vase, current, hiding, rooster, lawyer

Remember to pretend like we are back at school and follow our routine there. E.g. Monday; have your first test on these words, Tuesday/Wednesday/Thursday; practise your words Friday; Get retested on the words you have been learning all week.

Explore and investigate:

Now I don't know about you, but I would LOVE to go away on holiday somewhere and swim in warm, clear water to see lots of fish. So today, we are going to explore our senses and pretend we are swimming near a coral reef somewhere in New Zealand.

Watch and listen to the YouTube clip of a coral reef below;

<https://www.youtube.com/watch?v=5ET2B-bEduc>

Imagine you are there, swimming around or looking through a camera lens.

- What can you hear?
- What can you see?
- What can you smell?
- What can you feel?
- What can you taste?

Using this link YouTube 'How to draw' link below, see if you can draw a coral reef. Add some colour to it and see if you can draw yourself swimming and looking at it.
