

# Kao School at Home

Kia ora all,

Happy first week of spring! It's great to be back in level 3 and a little closer to level 2. I'm missing everyone and can't wait to see you when school starts again.

Thanks for all your hard work over the last few weeks. I know it's hard to juggle work, home and kids; especially when it's rainy! In keeping with the creative theme from last week we will be building a cardboard city of your choice. All you'll need is paper or cardboard.

Thanks and enjoy your creative week,

Dessa Harris

## Reading Fun and Games

Get some ideas about what your city could look like by playing, "Where in the world is Carmen Sandiego". You will need to read and follow the clues in the game in order to find her. To start with you may need some guidance from an adult to help you understand how to play; but it is lots of fun!!

## Brain Teaser

*Measure your city*

Make sure that the combined height of all your buildings equals 2 meters or 200 cm. You will need to draw out a plan of your city. Think about what numbers you will need to add to get to 200. These will need to be the heights of your buildings. If your buildings are too tall to fit on to the paper you could always draw a plan of your city outside, drawn in the mud!

## Recount writing

Write a story about the chief, king or mayor of your city. Tell me about a day in their life. What is their name? Where do they live? What do they do during the day? What does their home look like.

For more information on how to write a recount visit the link below.

## Spelling

Create a list of all the shops and attractions in your town. Scribble down as many ideas as you can in 10 minutes. Don't give up, you need to keep going for the full 10 minutes.

Then get an adult to check your spelling. The words you have spelt incorrectly will be your spelling words.

## Technology and investigation

Decorate and detail your city. Make sure your city meets the requirements below.

\*Create a flag for your city. \*Write a national anthem for your city. \*Make sure you have 3 3D shapes in your city.

\*Create a language for your city. Write a list of words in English and then write how you say them in your own language. \*Make a fun attraction in your city. \*Create 5 different cardboard people for your city.
