

NEWS FROM ROOM ONE.

It is great to be back at school. Room One have a busy term planned. The pool is nearly ready, so please send togs and towels this week just in case we get to have a swim on Friday. We are learning all about natural disasters and how communities plan for them. Later in the term we will do some experiments with baking and finding alternatives to sugar that we can use to add sweetness.

In visual art we are learning all about space and have started looking at positive and negative space in art work. We have been experimenting and below are some examples of what we are currently working on.
