

Kaeo School at Home

Hi from Mrs Molesworth,

I have been wondering how everyone is. It was great to have days of lovely sunny weather. I did manage to take Tommy out for a ride and he was very well behaved. Maybe some of you went swimming, you will have to tell me about it when we get back to school, not long now I hope. I keep thinking about our pumpkins so some rain in a few days would be good. Here is your work .

I hope your reading is going ok. Remember reading the same readers is just fine. Its like learning to ride a bike, when you practice something over and over you get really good at it. Sit down with someone from your whanau and enjoy another book together. If it's a new book you haven't seen before try to predict what happens before you read it, just like we do at school. Remember to look out for all those little words that you are learning. After your reading I want you to look at the word ... can . Look at the letters that make this word. Get an adult to write it for you, and you practice writing it. Notice how all the letters are short. What say you changed the first letter to another letter, it might make a new word! Try this. Talk about it.

We are still learning about money. Today I want you to set up your own shop. Ask your adult if you can use some things from your kitchen. It might be a can of baked beans or a packet of biscuits. Make some tickets with a price on for each item, get your adult to help you here, they can show you how to write a \$ and C for cents. Your adult can show you where the signs go. When you have your shop organised make a sign of the name of your shop and then ask people in your whanau to visit you and buy something you are selling. It doesn't have to be food items. Use your imagination!

Your story today is about your favourite toy. Draw you picture plan showing as much detail as possible and remember to draw the details of whether it is inside or outside, what would I see? In your writing I want you to think of a word that describes you toy. It could be like this.....Here is my big red teddy. You know how to write some of the little words, remember finger spacing and try to write the letters correctly. Get your adult to help so you can copy and check that it looks correct. You do a lot of checking and noticing at your age. Remember our SPY EYE at school.

I want you to practice the letters that have long sticks in them. These could be A, B, b, D, d, E, F, H, h, K, L, l, M, N, P. p , R, T, t, V, v, W, w, X, x, Y, Z, z . You choose some to practice and get your adult to write them so you can copy. Use your SPY EYE to get them looking correct.

I hope you had fun creating your octopus. Your next piece of art is going to be from our garden. You guessed it, a SNAIL! If you could find one outside in your garden you could use your SPY EYE to see its shape. You could have a long sausage shape for its body and a half circle shape for its shell. Put 2 feelers up from its head and put 2 round eyes on the end of them. If you have some coloured paper you can draw your body shapes on different colours then cut them all out and glue it all together onto a background piece of paper. You could even add details of the garden around it e.g flowers, leaves, clouds, sun or rain. Be creative, have fun. Show me at school.
