

Kia ora from Room 6!

Room 6 have had a great start to the year. We are now familiar with a wide range of our classroom routines. It is great to see just how well many of the class are progressing with their learning in the core areas. We love being outside and having fun. Swimming is a favourite activity for all. We are confident in the water and enjoyed it when Nancy Murray from Swim Safe came to visit.

We also had fun learning to play cricket with Chontelle from Sport Northland. We know that Cricket is a team game and that there is a bowling / batting team and a fielding team.

We have recently started to feed our class garden and have planted out our first flowers. We have keen helpers to tidy up after planting.
