

# Kia Ora From Room 7

Term 1 has been a time for sharing, showing kindness and getting to know each other. It has been so exciting to have two teachers to bring lots of fun and excitement to learning in this very important transition stage when children start school. We are well under way to learning to read, write stories, learn about numbers, becoming fit and competent in learning the early stages of swimming, practicing Te Reo through waiata and stories, and looking to our environment to learn those special secrets of life. Here are a few photo's to give you a glimpse of life in Room 7.
