

# NEWS FROM ROOM ONE.

Kia ora everyone.

Term 4 is incredibly busy, this week we have had Kapahaka with Whaea Gee, a visit from Chris to talk to the kids about Water Safety, Gina from Sport Northland teaching the children the proper technique for high jump, and a visit from Mel and Chris who are working on the Kaeo Bridge project.

On top of that, Room's One and Two have been busy making and setting out tracking tunnels to find out what predators we have in our school grounds that could be a threat to our birdlife.

So far we have tracked one rat, one possum, a mouse and a large number of slugs and snails. Below are some photos of the children re-setting their tunnels today.
