

## Room 4

# My Whanāu and Friends

Sid

This term we have been learning about ourselves and each other.

This week we started looking at the Te Whare Tapa Whā Well-being model.

We started by looking at Taha Whānau—Family and Friends.

We shared with each other the people we are close to, live with, care about and share our life with. Then we discussed how having strong positive relationships with others is important to keep us healthy and happy.
