

## Room 4

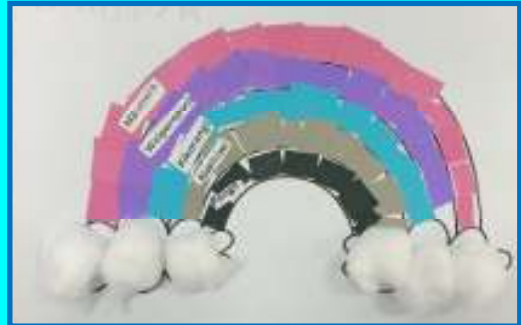

Harlem

Nico

Waimirangi

Elizabeth

**This week we have been learning our colours in Te Reo. We created these rainbows, choosing our own colours and matching them with the correct words in Maori.**

**We have also been learning about rotation, reflection, tessellation and translation in Mathematics. We created a picture of a garden to help us understand these terms.**

**Rotation—windmill**

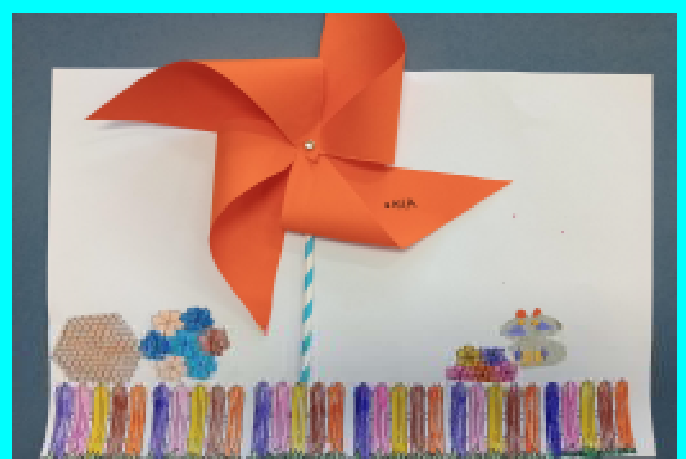

**Translation—fence**

**Tessellation—flowers**

**Reflection—bugs and butterflies**
