

Room 3 Update

This Term we have become entomologists!!
Entomologists study insects and arachnids.
We have been looking at life cycles, insect body parts and learning lots of interesting facts.

As part of our investigation, we have been creating our own entomology books. These books show our learning journey and have lots of interesting information inside.
Check out some of the cool features of our insect books!

Arachnid Reports

We investigated how arachnids were different from insects.
We listed all our facts and findings and created a report about what we learnt.

Frankenbug Reports

These were a bit of fun! We made-up reports about our own imaginary insect.
We used our knowledge of report writing to create these fantasy investigations.
